DETAILED ACTION

Drawings

1. The drawings were received on May 28, 2004. These drawings are approved.
2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because of the changes initiated by applicant to figures 14a and 14b on May 28, 2004. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4, 15 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Bowman 3,912,139.

Bowman teaches a truck bed mounted carrier comprising a base plate 22, 24, 26, at least one saddle 12 with curved risers 18, latching means 16, and adjustability 30, 40, and an adjustment mechanism 50, 70. As to the limitation in claim 18 of a means for storing, this could constitute the bed of the pickup 100 among other things.

Allowable Subject Matter

5. Claims 5-14, 16, 17 and 19-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
